- Advertising and Marketing (235,512)

Growth per Industry.

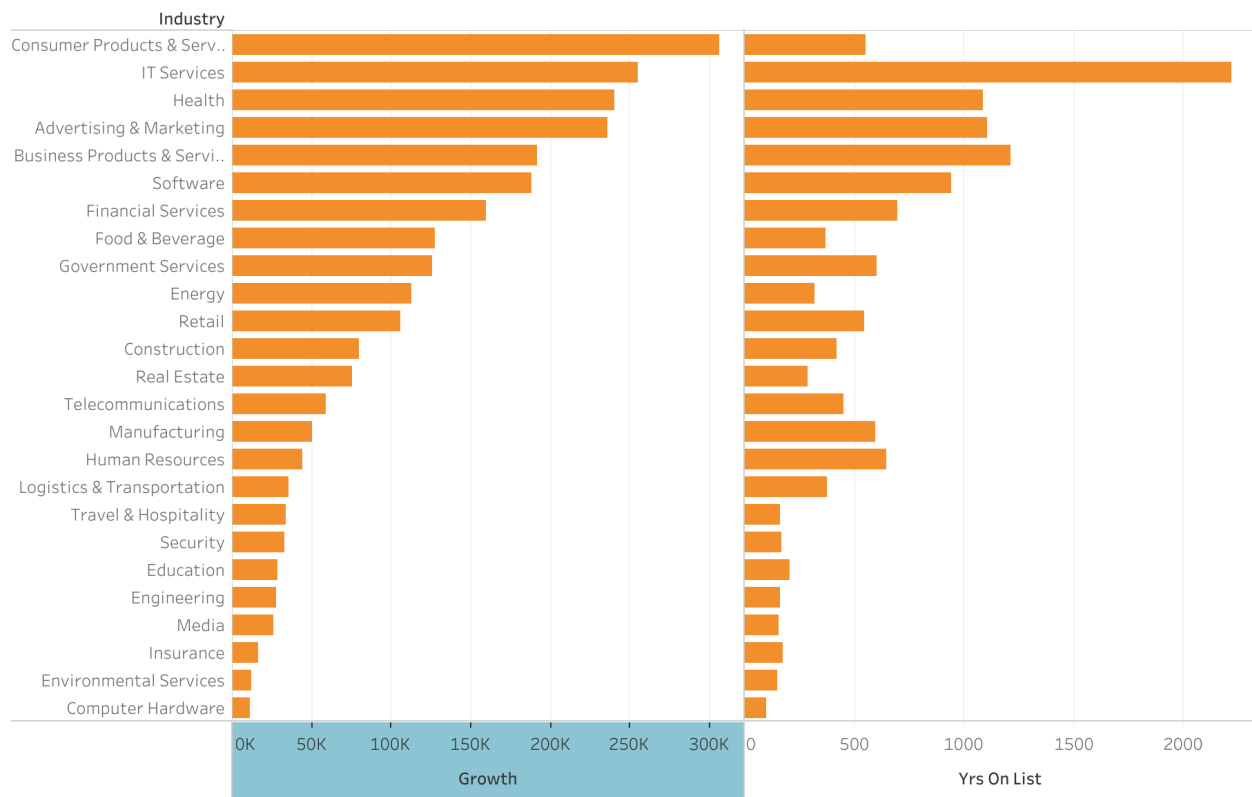

Do companies that have been on this list longer have a higher chance of appearing again in this list?

The majority of companies (1,868) were first introduced during the initial phase.

Companies on the list for multiple years appear less frequently, suggesting that staying on the list becomes increasingly difficult over time.

YRS ON THE LIST.

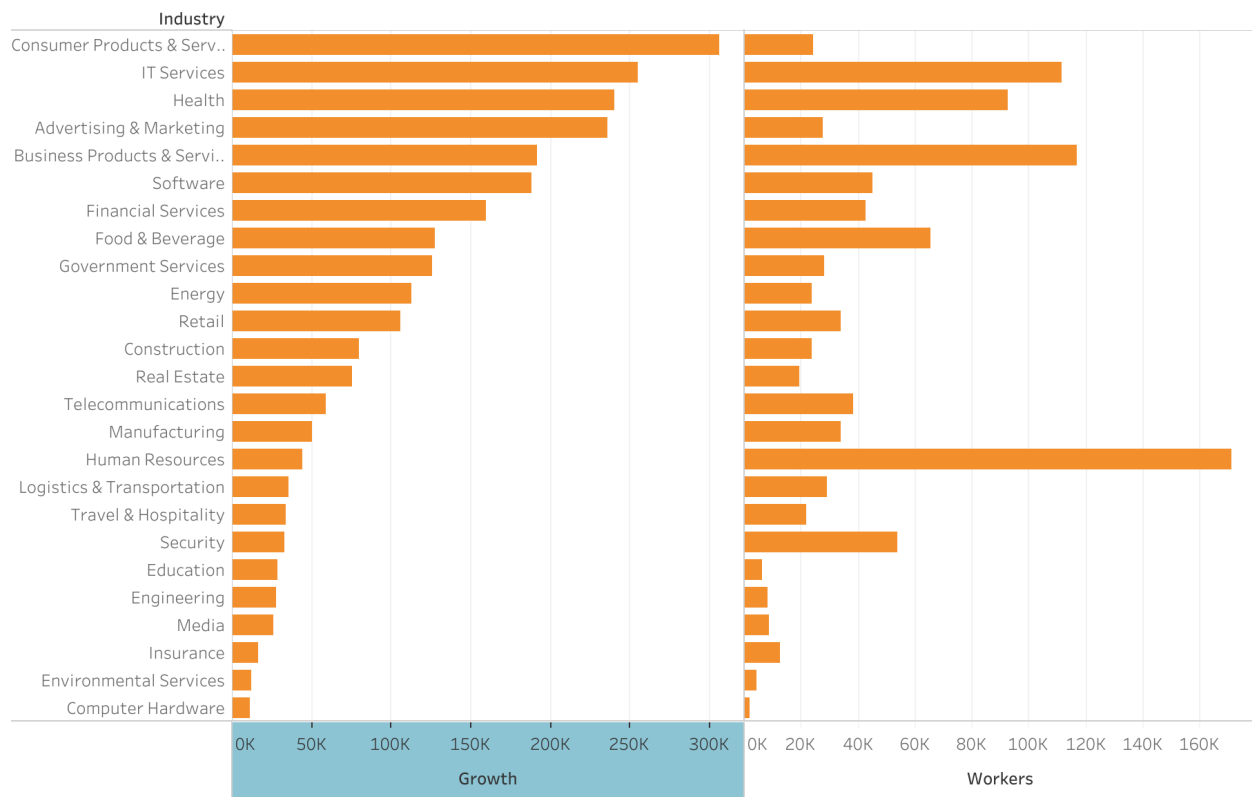

Does the number of workers in the company affect the growth of the company?

A weak negative correlation (-0.01255) exists between the number of workers and the company's worker growth rate. This analysis reveals the factors influencing the company's growth.

This data represents the number of employees who do not typically influence the company's growth rate.

Workers
